NATURAL THIN VENEER COLLECTION

"Everything changes,
even **stone.**"

- CLAUDE MONET

ENTER THE NEW AGE OF **STONE.**

Modern Stone is a supplier of interior and exterior natural stone veneer products. We have a strong focus on providing homes and businesses with products containing unmatched sturdiness and designs that speak to the present. We achieve the perfect balance between beauty and durability with our state-of-the-art natural stone cutting equipment using the highest quality stones from the US and Canada. We cannot wait to provide you with the building blocks of your next project.

CUTTING SHOP

65,000 sq ft.

Modern Stone was created with the objective of bringing traditionally rustic natural stone to the present day by creating the most contemporary natural stone thin veneer products available. We strive to create for our partners by supporting them every step of the way to ensure their continued success with us.

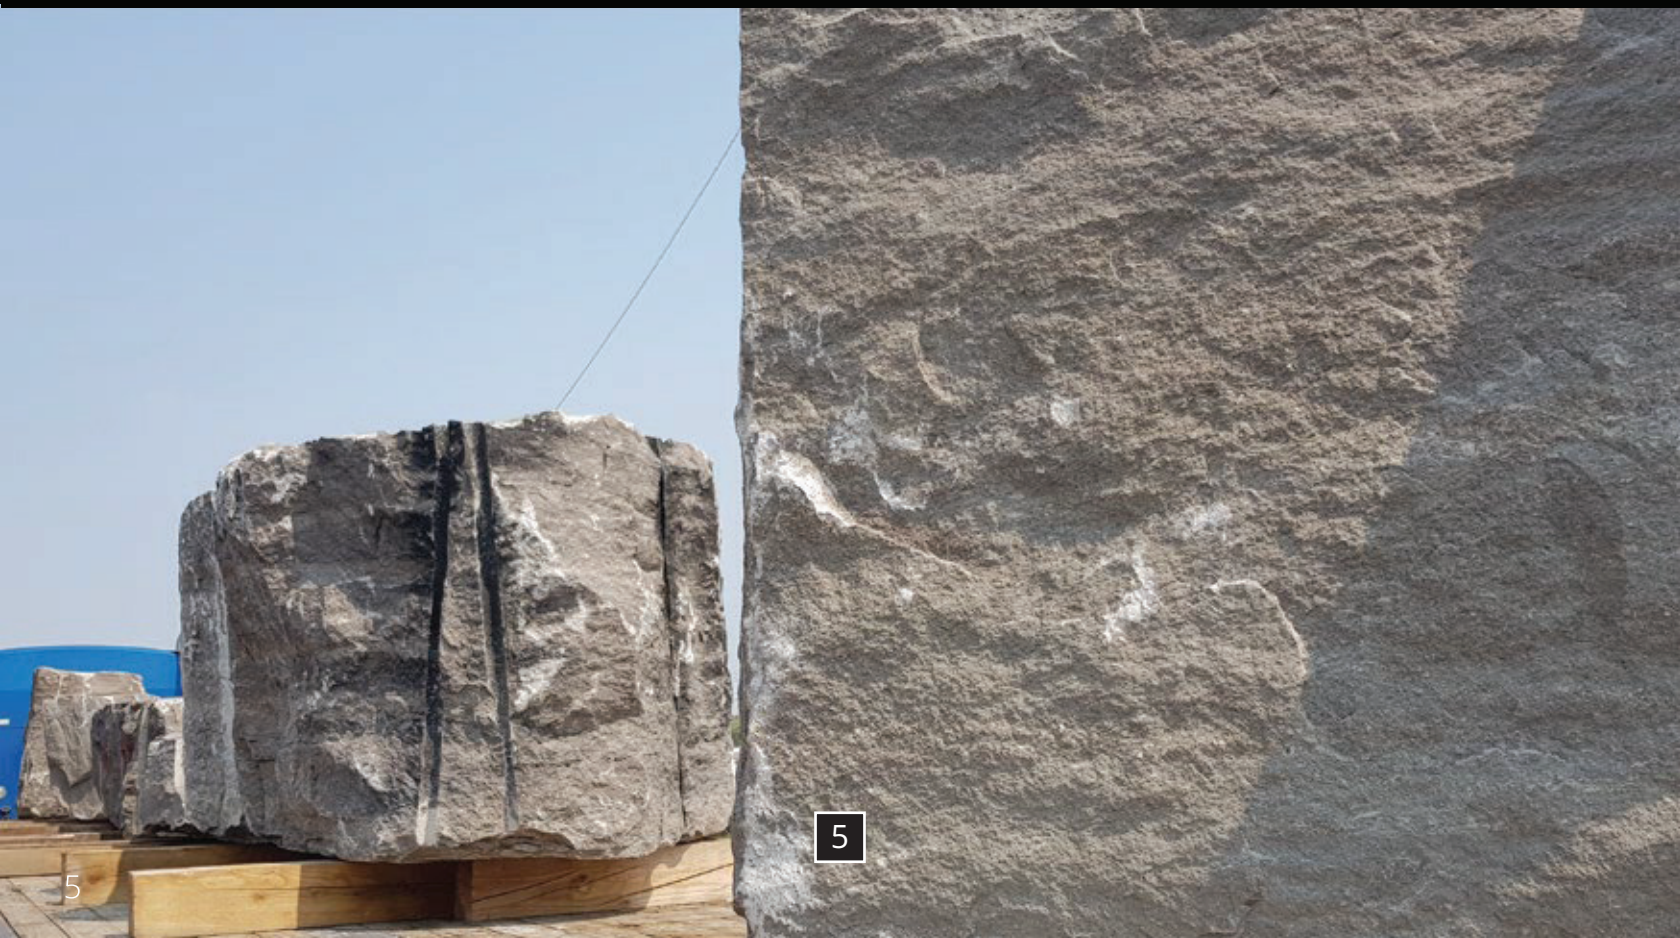

Our dedicated 65,000 sq/ft manufacturing plant in Claresholm, Alberta ensures there are never any shortages in supply. With our state-of-the-art stone cutting equipment and technology, we cut the highest quality stones from both Canada and the United States and convert them into beautiful contemporary stonework.

Our stone cutting facility in Claresholm is completely dedicated to converting raw natural stone into contemporary thin veneer.

Equipped with some of the most advanced stone cutting equipment available, we ensure we supply the highest quality natural stone veneers to our purchasers, with no shortage of inventory.

ADRIA

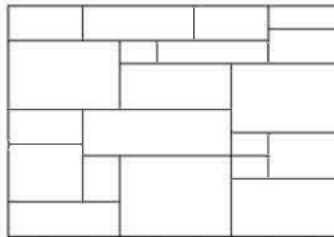

Thin Veneer

Composed of an all rock-face arrangement, the Adria takes a very classic look but brings it into the contemporary. The natural rock-face highlights the uniqueness of each stone in the configuration. Available in Mist Limestone, Westmount Grey, and Sandstone.
